County, Washington, D.C.

FOREWORD

THIS REPORT provides data on enrollment and reimbursements by state and county under Medicare. For each state and county and for groups of metropolitan and non-metropolitan counties, the report provides figures on the number of persons enrolled under Medicare as of July 1, 1977, and the amounts reimbursed during calendar year 1977, to, or on behalf of, insured persons. The data are further subdivided into the two types of coverage available under the Medicare program—hospital insurance and supplementary medical insurance. The tables provide reimbursement data for all Medicare beneficiaries and by specific categories of eligibility: age, disability, and end-stage renal disease.

This report was prepared in the Division of Beneficiary Studies, Office of Research, Office of Policy, Planning, and Research. Text preparation was the responsibility of Martin Ruther of the Program Statistics Branch. Important con-

tributions for the tabulation and presentation of the statistical content of this report were made by Irving Goldstein, Wayne Kaczmarkieticz, Robert M. Dickerson and Kathryn D. Barrett. Special acknowledgment for computer services is made to the Division of Health Insurance Statistical Data, Office of Statistics and Data Management.

The general tables were produced by the System for Automated Tabular Composition, a computer system at the Social Security Administration headquarters in Baltimore, Maryland. They were photo typeset on Linotron equipment at the Government Printing Office.

GENERAL TABLES

Notes	1.1-1
1.1.1 Enrollment and reimbursement for hospital and medical insurance by census region, division, and State of residence: All persons	1.1-3
1.1.2 Enrollment and reimbursement for hospital and medical insurance by census region, division, and State of residence: Persons aged 65 and over ..	1.1-4
1.1.3 Enrollment and reimbursement for hospital and medical insurance by census region, division, and State of residence: Disability beneficiaries	1.1-5
1.1.4 Enrollment and reimbursement for hospital and medical insurance by census region, division, and State of residence: Persons with end-stage renal disease, all ages	1.1-6
1.1.5 Enrollment and reimbursement for hospital and medical insurance by census region, division, and State of residence: Persons eligible solely on the basis of end-stage renal disease	1.1-7
1.1.6 Enrollment and reimbursement for hospital and medical insurance by State and metropolitan—nonmetropolitan residence: Persons aged 65 and over	1.1-8
1.1.7 Enrollment and reimbursement for hospital and medical insurance by State and metropolitan—nonmetropolitan residence: Disability beneficiaries	1.1-11
1.1.8 Enrollment and reimbursement for hospital and medical insurance by State and county of residence: Persons aged 65 and over	1.1-14
1.1.9 Enrollment and reimbursement for hospital and medical insurance by State and county of residence: Disability beneficiaries	1.1-53

REIMBURSEMENTS, 1977

This report presents data on enrollment and reimbursements by state and county under Medicare's hospital insurance and supplementary medical insurance programs during calendar year 1977. These reimbursements amounted to \$20.5 billion in 1977.

Data for each state and area of residence are shown for all persons in table 1. For beneficiaries aged 65 and over and disability beneficiaries below aged 65, the data are shown in tables 2 and 3, respectively. Data for beneficiaries with end-stage renal disease are shown in tables 4 and 5. Tables 6 through 9 show amounts reimbursed to aged and disabled beneficiaries by state, metropolitan, and non-metropolitan counties, and for each county. Current reimbursement amounts by type of benefit are published monthly in the *Social Security Bulletin*.

Reimbursements for HI and SMI presented in this report represent amounts paid in 1977, to or on behalf of, insured persons.¹ The amounts are based on information from bills entered in Health Care Financing Administration records through June 1978 for calendar year 1977 and are listed by the state and county of the beneficiary's residence. Only reimbursed payments for covered services provided to

enrollees are included; administrative costs, deductibles, copayment amounts, and services not covered by law are excluded.

Also excluded are \$114 million in SMI reimbursements for 1977 to group practice prepayment plans and health maintenance organizations dealing directly with HCFA. However, enrollment figures shown in the tables include 439,000 aged and disabled members of such plans as of July 1, 1977.

The amounts reimbursed under the HI part of the program are based on interim rates which are adjusted after the end of each provider's accounting year on the basis of reasonable costs of operation. There are similar retroactive adjustments for home health and outpatient services covered by SMI. During calendar year 1977, retroactive adjustments added \$504 million under HI and \$207 million under SMI to interim reimbursements made in earlier years. Other payments under SMI are based on "allowed" (reasonable) charges for medical services determined on the basis of customary and prevailing charges.²

Amounts reimbursed and average monthly reimbursement per enrollee since the start of Medicare are:

¹Based on number of persons enrolled as of midpoint of time period.

NA Not available.

¹Amounts for 1977 are based on bills processed through June 1978, with approval dates in 1977, plus bills processed from July 1977 through June 1978, with approval dates prior to 1977. Bills with approval dates prior to 1977 were received too late to be included in reports covering earlier years.

²For more detailed information on interim rates and allowed charges see Provisions of the Law and Regulations.

Both HI and SMI amounts reimbursed and per capita reimbursements increased each year. The rise in per capita reimbursement since Medicare began was due primarily to increases in hospital costs and physicians' charges.

Between 1976 and 1977, the monthly per capita reimbursements for the aged under HI increased by 11.4 percent from \$41.80 to \$46.56 and SMI reimbursement increased

15.5 percent from \$15.37 to \$17.76. For the disabled, including beneficiaries with ESRD, the monthly SMI average, \$30.50 was notably higher than that of the aged, \$17.76. However, when data of beneficiaries with ESRD are excluded from the totals for the aged and disabled, monthly averages decline to \$17.85 per disabled enrollee and \$17.47 per aged enrollee.

PROVISIONS OF THE LAW AND REGULATIONS

THE MEDICARE program, enacted on July 30, 1965 as Title XVIII of the Social Security Act, became effective on July 1, 1966. In 1972 major changes were made in the program's provisions by Public Law 92-603 enacted October 30, 1972. The name of the Medicare program was officially changed to Health Insurance for the Aged and Disabled.¹

Effective July 1, 1973, Medicare coverage was extended to disabled beneficiaries under the social security or railroad retirement programs, and to persons under age 65 who require dialysis or a kidney transplant for end-stage renal disease.

The program makes available two separate but complementary insurance programs: hospital insurance, covering nearly all persons age 65 and over and disabled beneficiaries under age 65 entitled to benefits for at least 24 consecutive months, and covered workers and their dependents with end-stage renal disease who require renal dialysis or a kidney transplant; and supplementary medical insurance, covering those persons who voluntarily pay the premiums. Beginning July 1973, most persons age 65 or over otherwise ineligible for hospital insurance may enroll voluntarily and pay the premiums for hospital coverage if they are enrolled for supplementary medical insurance.

HOSPITAL INSURANCE PROGRAM

The hospital insurance (HI) program pays for part of the cost of inpatient hospital care and related health care services provided by skilled nursing facilities (formerly termed extended-care facilities) and home health agencies following a period of hospitalization. For the services to be covered, they must be provided by institutions and organizations which have been certified as qualified providers of services and which have signed an agreement to participate in the program.² An exception exists under special provisions for hospitals certified to provide only emergency services.

Benefits

The law provides limits on services which may be covered under the HI program. These limits are based on the concept of a "benefit period." A benefit period begins with the first day of hospitalization and ends when the individual has not been a bed patient in a hospital or skilled nursing facility for 60 consecutive days.

The law also established cost sharing by the individual through deductible and coinsurance payments. The Secretary of Health, Education, and Welfare is required each year to determine the deductible amount, by a formula, specified by law, which is based on the average per diem rate for inpatient services furnished beneficiaries during the preceding calendar year. The deductible amount tends to approximate the current cost of 1 day in a hospital. The coinsurance amount for hospital inpatient care is set at one-fourth of the deductible, for lifetime reserve days at one-half of the deductible, and for skilled nursing facility services at one-eighth of the deductible.

Inpatient hospital benefits.—Covered hospital services include room and board in accommodations containing from two to four beds, nursing services (except for private duty nursing), drugs and biologicals, and other services ordinarily furnished by a hospital to its inpatients.

The program does not cover the services of physicians (including staff radiologists, anesthesiologists, pathologists and psychiatrists) except for services provided by interns or residents under approved teaching programs.

The program pays for the "reasonable costs," of covered services in a participating hospital for up to 90 days in a benefit period. Full payment is made for the first 60 days of hospitalization, less a deductible applicable to each benefit period. The deductible, which is adjusted each year, was \$124 in 1977 (the year of data in this report) and rose to \$144 in 1978. For each of the remaining 30 days in the benefit period, the patient pays a coinsurance amount equal to one-fourth of the deductible.

Each hospital insurance beneficiary also has a "lifetime reserve" of 60 additional hospital days which can be used at his option whenever he has exhausted the 90 days covered in a benefit period. Lifetime reserve days were subject to a copayment of \$62 per day equal to one-half of the deductible in 1977. In 1978, this increased to \$72.

The cost of the first three pints of blood (or equivalent amounts of packed red blood cells) furnished a patient during a benefit period is also deductible unless the patient arranges for replacement. Charges for any additional blood are covered under the program as are charges for blood administration, storage, etc.

The program also pays for emergency services in a non-participating hospital. Each nonparticipating hospital providing emergency services may elect to claim payments from the Medicare program for emergency services rendered beneficiaries in a given year. If the hospital elects this option, reimbursement is made as described above. If the hospital elects not to bill the program, the beneficiary claims direct payment and submits the itemized bill. In this case reimbursement is based on reasonable charges for covered services and amounts to 60 percent of reasonable charges for room and board plus 80 percent of such charges for ancillary

¹For a description of the provisions of the Social Security Act as amended through January 4, 1975, see *The Social Security Act*, Committee on Finance, U.S. Senate, 94th Congress, 1st Session.

²For certification requirements see Social Security Administration, Office of Research and Statistics, *Medicare: Health Insurance for the Aged, 1972-74, Section 3: Participating Providers* (Washington, D.C.: U.S. Government Printing Office, 1976).

services. Payment is subject to the deductible and coinsurance provisions of the law.

Hospital insurance benefits also include reimbursement for inpatient tuberculosis and psychiatric hospital services. However, there is a lifetime limit of 190 days of care in the psychiatric hospital. When a person in a participating psychiatric hospital becomes entitled to hospital insurance, the number of days he was such an inpatient in the 150-day period prior to his eligibility is deducted from his days of entitlement to inpatient psychiatric care in that benefit period, but not from the lifetime limitation.

Hospital insurance benefits have been extended to cover payments for inpatient services furnished by a foreign hospital, if it is closer to or more accessible to the beneficiary's residence than a U.S. hospital. For benefits to be payable the beneficiary must be a U.S. resident and the foreign hospital must be accredited by, or have standards equivalent to, the Joint Commission on Accreditation of Hospitals (JCAH).

Skilled nursing facility benefits.—Covered extended-care services furnished by a skilled nursing facility include nursing care; room and board; physical, occupational or speech therapy; drugs and biologicals; medical services of an intern or resident-in-training of a hospital having a transfer agreement with the skilled nursing facility; and other necessary health care services generally provided by such facilities.

The program pays for the reasonable costs of all covered inpatient services in participating skilled nursing facilities for up to 100 days in a benefit period. Benefits are payable only following discharge from a hospital after a stay of 3 consecutive days or more; generally the admission to the facility must occur within 14 days of hospital discharge. However, a period of up to 28 days after discharge from a hospital is permitted when the patient's medical condition or shortage of beds delay the admission date. Full payment is made for the first 20 days. For each of the remaining 80 days, the patient pays a coinsurance amount per day equal to one-eighth of the inpatient hospital deductible (\$15.50 in 1977, and \$18 in 1978).

For extended-care services to be covered, a physician must certify that the patient needs daily skilled nursing care or skilled rehabilitation services and must order the services. The 1972 amendments include a provision for advance approval of extended-care services, whereby the Secretary of HEW establishes, by medical condition, when a patient will require skilled nursing care services after hospitalization. Accordingly, a patient's physician may certify the need for a skilled nursing facility and submit a plan, in advance of admission, as to the type of services to be provided. The plan will be presumed to be the type of care covered as a skilled nursing facility.

Post-hospital home health benefits.—Covered home health services may include part-time or intermittent nursing care; physical, occupational or speech therapy; part-time or intermittent services of a home health aide; medical supplies (other than drugs and biologicals) and the use of medical appliances; and, in certain cases, services of an intern or resi-

dent-in-training of a teaching hospital. The services must be furnished by or under arrangements of an approved home health agency.

Coverage under HI provides for payment of the reasonable cost of up to 100 home health visits after the beginning of one benefit period and before the beginning of the next. There is no deductible and no coinsurance. The visits must occur within a year following a beneficiary's most recent discharge from a hospital stay of at least 3 consecutive days or from a covered stay in a skilled nursing facility. The home health services must be necessary for further treatment of a condition for which the patient received services in the hospital or skilled nursing facility. A home health plan must be established by the patient's physician within 14 days after the hospital or skilled nursing facility discharge. The 1972 amendments include a provision for advance approval of home health coverage similar to that provided for skilled nursing care services.

SUPPLEMENTARY MEDICAL INSURANCE PROGRAM

The supplementary medical insurance (SMI) program provides coverage for a variety of medical services and supplies furnished by physicians or others in connection with physicians' services; outpatient hospital services; and home health services. Individuals participate voluntarily in the program. Premiums are paid by or on behalf of all enrollees, and by the Federal Government from general revenues.

Benefits

Physicians' services covered under the program include visits to the home, office, hospital, and other institutions. The program also pays for other services and supplies, such as drugs and biologicals that cannot be self-administered, if they are furnished as a part of a physician's professional service; diagnostic X-ray tests, diagnostic laboratory tests, and other diagnostic tests, X-rays, radium, and radioactive isotope therapy; splints, casts, and other devices used for reduction of fractures and dislocations; purchase or rental of durable medical equipment; ambulance service; and prosthetic devices that replace all or part of an internal organ. Also provided are home health visits provided by a certified home health agency in accordance with a home health plan established by the patient's physician (no prior hospitalization is necessary). Payment may be made for up to 100 home health visits in a calendar year without regard to similar services received under the HI program.

Also covered are hospital services incident to physicians' services rendered to outpatients, and outpatient speech and physical therapy services. In addition, effective July 1, 1973, the 1972 amendments provide for services of a physical therapist in independent practice furnished in his office or the patient's home, under a physician's plan. Reimbursement would be limited to not more than \$100 of incurred expenses in a calendar year.

Some services of a licensed chiropractor are covered. Covered services are limited to treatment by means of manual manipulation of the spine to correct a subluxation demonstrated by X-ray.

In each calendar year through 1972, a \$50 deductible had to be satisfied before payment could be made under the SMI program. In 1973, the deductible was raised to \$60, where it remains currently. Bills count toward the deductible on the basis of incurred rather than paid expenses; only charges allowed under the program count toward the deductible. To preclude the possibility of a beneficiary having to meet a deductible twice in a short period of time a "carryover" provision is applied. Accordingly, covered expenses incurred in the last quarter of the year and applied to the deductible in that year are also credited toward the deductible for the following year.

After the deductible has been met, the SMI program pays for 80 percent of the allowed (reasonable) charges for covered physician services and most other medical services. However, deductible and coinsurance requirements do not apply to the services of radiologists and pathologists furnished to hospital inpatients. "Reasonable" charges for such services are reimbursed.

When an independent laboratory bills patients directly and accepts assignment, the Secretary is authorized to negotiate a payment rate with the laboratory for the diagnostic tests it provides Medicare beneficiaries. Reimbursement on assigned bills is made at 100 percent of the negotiated rate; the deductible and coinsurance requirements do not apply. Hospital services, incident to outpatient care, and home health services, are subject to the deductible and are reimbursed on the basis of 80 percent of reasonable costs. However, coinsurance payments for home health services were eliminated after December 1972.

The law sets special limits on the payment which may be made for outpatient treatment of mental illness; recognition of incurred expenses is limited to the lesser of \$312.50 or 62.5 percent of actual expenses in a calendar year. Since only 80 percent of allowed charges may be reimbursed, the effect is to limit payment to \$250 or 50 percent of the allowed charges in any year after the deductible has been met, whichever is less.

ELIGIBILITY

Hospital Insurance

Almost all persons aged 65 and over are eligible for benefits under the hospital insurance program. Included are those entitled to monthly social security cash benefits or payments from the railroad retirement system. Further, a special transitional provision provides eligibility for certain persons who do not qualify for monthly cash benefits on the basis of their own covered employment or as a dependent or survivor of an insured worker. The provision applies, generally, to a person aged 65 or over who (1) attained age 65 before 1968 or (2) attained age 65 after 1967 with not less than three quarters of social security coverage, whenever acquired, for each calendar year elapsing after 1966 and before the year in which he attains age 65. For persons who reach age 65 after 1968, the amount of work credits (quarters of coverage) needed increases by three quarters each year—six quarters are needed by those who reached age 65 in 1969, nine by those who reached 65 in 1970 and so on. The transitional

provision does not apply to persons attaining age 65 after 1974.

Hospital insurance protection under certain circumstances can be retroactive for as many as 12 months before the month an individual files his application for entitlement. For example, an individual may apply 11 months after he attains age 65 and still be entitled to benefits from the month he attained age 65.

Effective July 1, 1973, disabled persons entitled for not less than 24 consecutive months to cash benefits under the social security or railroad retirement programs are eligible for benefits under the hospital insurance program. Those covered include disabled workers under 65 years, disabled widows and disabled dependent widowers between the ages of 50 and 65, women age 50 or older entitled to mother's benefits who for 24 months met requirements for disability benefits but did not file a claim, and disabled beneficiaries age 18 or over who became disabled before age 22. A person must be disabled for 5 months before disability benefits can begin. Medicare coverage begins with the 30th month after the first full calendar month of disability.

Hospital insurance protection was also extended to persons under age 65 who are currently or fully insured or entitled to monthly social security benefits, and to their spouses or dependent children who have end-stage renal disease and require renal dialysis or a kidney transplant. Eligibility for coverage begins with the 3rd month after a course in renal dialysis begins or before this qualifying dialysis period for ESRD beneficiaries receiving kidney transplants without starting or receiving dialysis in preparation for transplantation. Eligibility ends with the 12th month after the person had a kidney transplant or dialysis was terminated.

The law now permits persons attaining age 65 who are ineligible for hospital insurance either as cash beneficiaries or under the transitional provisions to purchase hospital coverage.

Coverage under this provision was effective July 1, 1973, and the monthly premium set at \$33 rose to \$36 starting July 1, 1974, to \$40 beginning July 1, 1975, to \$45 on July 1, 1976, to \$54 on July 1, 1977, and to \$63 on July 1, 1978. The premium represents the estimated per capita cost for services furnished under the hospital insurance program. Individuals may enroll in the hospital insurance program only if they enroll in the supplementary medical insurance program. Enrollment periods for hospital protection were the same as the initial and general enrollment periods under supplementary medical insurance.

Persons who retired from Federal service after July 1, 1960, and had the opportunity to be covered under the Federal Employees Health Benefits Act of 1959 are ineligible for hospital insurance benefits under the transitional provisions.

Also ineligible are aliens with less than 5 years of continuous residence in the United States, and those persons convicted of crimes against the security of the United States.

Supplementary Medical Insurance

Persons entitled to benefits under the hospital insurance program, retired Federal employees, aliens residing in the United States, and persons not eligible for hospital insurance under the transitional provisions may participate voluntarily in the SMI program. To enroll prior to July 1, 1973, the person had to file a written request with the Social Security Administration during specified periods. To prevent loss of entitlement or delay, the 1972 amendments provide for automatic enrollment in SMI for persons as they become entitled to hospital insurance. An individual may decline SMI enrollment. If he withdraws before his coverage starts, there is no premium liability, nor is he charged with an enrollment.

Individuals may enroll in the SMI program only during the initial and general enrollment periods. The initial enrollment period begins with the third month preceding the one in which an individual is first eligible and ends 3 months after the month of attainment, a total period of 7 months. If he enrolls during the 3 months prior to the month in which he is first eligible, his coverage is effective with the month in which he is first eligible; if he enrolls during the month he is first eligible, his coverage begins the following month; if he enrolls in any of the 3 months after he is first eligible, his coverage begins from 2 to 3 months after enrollment, depending on how long he waited before enrolling.

Beginning with 1969, SMI general enrollment periods are from January 1 through March 31 of each year for those who did not enroll in their initial enrollment period or who previously terminated their enrollment and wish to re-enroll. A person who enrolls during a general enrollment period is covered under SMI beginning with July 1 of the year in which he enrolls. Prior to the 1972 amendments, an eligible individual had to enroll within 3 years after the end of his initial enrollment period or within 3 years after termination of prior enrollment. The 3-year limitation is no longer applicable. Re-enrollment is allowed only once.

A State may enroll eligible aged and disabled individuals who receive cash payments under State supplementary income or State supplementation programs or are otherwise eligible for medical assistance under Title XIX if: (a) prior to January 1, 1970, the State requested that a State-Federal enrollment agreement be established, and (b) the State pays the necessary premiums.

For a person 65 years and over, enrollment terminates with the beginning of the month following the month of death. For the disabled person, coverage terminates with the end of entitlement to benefits based on disability. For a person with end-stage renal disease, coverage ends 12 months after he had a transplant or dialysis treatment ends. Otherwise, social security and railroad retirement beneficiaries may give notice of their desire to withdraw from the SMI program at any time; their coverage is terminated at the close of the following calendar quarter. Other enrolled persons may terminate their coverage by withholding payment of premiums or by notifying the Social Security Administration in writing of their desire to withdraw from the program. The enrollee is provided a 90-day grace period for the payment of overdue premiums after which coverage is auto-

matically terminated. The 1972 amendments extend the 90-day grace period for an additional 90 days when the Secretary finds there is a good cause for failure to pay the premium before the end of the initial 90-day grace period.

FINANCING THE PROGRAM

Hospital Insurance

The hospital insurance program is financed primarily through a tax on a portion of current earnings in employment covered under the Social Security Act. The maximum amount of annual earnings to which the tax is applied began at \$6,600 for calendar year 1966; it increased to \$7,800 effective with 1968 and \$9,000 effective with 1972. The 1972 amendments established an automatic adjustment procedure for determining maximum annual earnings based on rising wages. The maximum earnings amount was \$15,300 for 1976 and \$16,500 for 1977.

The same tax rate applies to employees, employers, and self-employed persons. The rate was 0.60 percent for each year 1968-72. The scheduled rate for 1973 was 1.00 percent, 0.9 percent for 1974-77, and rates increase for future years up to 1.5 percent for 1986 and thereafter. The proceeds of this tax, and monies collected from the railroad retirement system (with respect to the coverage of railroad retirement beneficiaries) are placed in the Federal hospital insurance trust fund from which reimbursement for all benefits and administrative expenses incurred under the hospital insurance program is made. The hospital insurance trust fund is reimbursed from general tax revenues for the cost of providing coverage for the persons who qualify for hospital insurance under the transitional provisions. Amounts paid for hospital insurance coverage by persons voluntarily paying the premiums are deposited in the hospital insurance trust fund.

Supplementary Medical Insurance

Premiums are paid into the Federal supplementary medical insurance trust funds by those persons enrolled for supplementary medical insurance (or on their behalf), and a matching amount is paid by the Federal Government from general revenues. Benefits and administrative costs are paid from monies in the SMI trust fund.

The premiums of persons receiving social security cash benefits, railroad retirement, or Federal civil service annuities are deducted from their monthly benefit checks. Persons not receiving monthly benefits are billed quarterly for premiums by the Health Care Financing Administration or the Railroad Retirement Board and have a 90-day grace period in which to make payment. A person is given an additional 90 days to pay the premium when the Secretary finds there is good cause for failure to pay the premium before the end of the initial 90-day grace period. Premiums may be paid for as long as a year in advance. For individuals financially unable to make quarterly payments, arrangements can be made for monthly payments.

Amount of premium.—The Secretary of HEW is directed by law to determine the SMI premium rate on an annual basis.

The dollar amount, prior to the amendments of 1972, was required to be sufficient to produce revenue equal to one-half the expected benefit and administrative costs payable under SMI during the period in which the rate applied. Between 1966 and 1972, the premium increased from \$3.00 to \$5.80 a month. The 1972 amendments made changes in the method of premium determination. The rate is to be determined in December each year and is applicable for 12 months beginning the following July. It will be increased only in the event of a general cash benefit increase. The percentage increase in the premium in any given year may not exceed the percentage increase in cash benefits. Further, the rate must be determined so that the revenue produced does not exceed, but may be less than, one-half the expected SMI costs. The monthly rate was \$7.20 effective July 1976 and increased to \$7.70 in July 1977.

ADMINISTRATION OF THE PROGRAM

Hospital Insurance

Under the HI program, groups or associations of providers, on behalf of their members, may nominate a national, State, or other public or private agency or organization to serve as an intermediary in the claims process. A member of an association is free, however, to receive payment from an approved intermediary other than its association's nominee if approved by the Secretary and agreeable to the intermediary selected. In addition, a provider may deal directly with the Health Care Financing Administration.

The Secretary may enter into an agreement with a nominated organization if he finds this to be consistent with effective and efficient administration of the hospital insurance program. Under the agreement, the intermediary determines the provider's reasonable costs for items and services covered under the program; makes payment; and assists in the application of safeguards against unnecessary utilization of covered services. The agreement may also call for (1) furnishing consultative services to assist providers to establish and maintain necessary fiscal records and otherwise qualify as providers of services; (2) serving as a center for communicating with providers; and (3) making audits of provider records. Hospital insurance intermediaries also make payments for home health and outpatient hospital services covered under medical insurance.

Under the law, the reasonable costs of services are determined pursuant to regulations established by the Secretary of HEW. These regulations prescribe the method(s) used to determine costs and the items to be included; they take into account both direct and indirect patient care costs.³

Requests for Medicare payment for covered services generally are submitted by the provider of services; they must be signed by the beneficiary (or someone for him, if he is unable to do so). The provider is reimbursed on the basis of reasonable costs of covered services and bills the beneficiary for deductible and coinsurance amounts as well as for services not covered by the program.

In some instances, hospitals may bill the program on a physician's behalf for services rendered to inpatients. In these cases, payment is made by the HI intermediary. For this type of billing, funds are transferred from the SMI trust fund to the HI trust fund to cover the cost of these services.

The intermediary selected by the provider reviews claims for payment and pays the provider. Actual payment for individual claims is made on the basis of an interim rate established between the provider and the intermediary. Final settlement for each provider's operating year is made on the basis of a cost report submitted by the provider, and subject to an independent audit.

No payment can be made to Federal facilities except for emergency services, unless the provider serves as a community institution. In addition, payment cannot be made to a provider for those services it is obligated to render at public expense under Federal law or contract.

Supplementary Medical Insurance

Under the SMI program, the Secretary of HEW may enter into contracts with carriers for the performance of specified administrative functions. The carrier's principal function is to determine whether charges are allowable (reasonable) and to make payment. Carriers also have the authority and responsibility to determine, in a given case, whether a claim is for a covered service and to deny claims for noncovered or excluded items or services. In addition, carriers are to assist in applying safeguards against unnecessary use of services.

The allowable charge, on which the Medicare SMI payment is based, may not exceed the lowest of (1) the physician's or supplier's customary charge for the service, (2) the prevailing charge in the locality for similar services, or (3) the charge applicable for comparable services under comparable circumstances to the policyholders or subscribers of the carrier. The 1972 amendments provided that increases in the prevailing charge levels would be limited by an economic index furnished by the Bureau of Medicare to all carriers. The economic index relates physicians' fee increases to increases in physicians' practice expenses and increases in the general earnings level.

Allowable charges are updated annually to take into account the actual charges physicians and suppliers have billed for covered services in the preceding calendar year. The revised allowable charge levels go into effect on July 1 of each year or as soon thereafter as they can be incorporated into the carrier's payment system. Thus, for the 12-month period beginning July 1, 1975, allowable charge levels were calculated from actual charge levels for calendar year 1974. However, allowable charges could not exceed the upper limit of the prevailing charges set by law at the 75th percentile of customary charges (weighted by frequency) made for similar services.

Claims for payment of SMI benefits may be submitted to the carrier either by the patient or by the physician or other supplier of services. If the patient submits a claim (an itemized bill) directly to the carrier, he receives direct payment of benefits for covered services; he remains responsi-

³For details see Code of Federal Regulations, Title 20, Chapter III, Part 405, Subpart D.

ble for the physician's (or supplier's) bill. The patient may assign the payment for benefits to a physician or other supplier of services who is willing to accept assignment. In this case, the physician (or supplier) agrees that the allowed or reasonable charge determined by the carrier is the total charge. The physician (or supplier) submits the bill and is reimbursed. In this situation, the patient remains responsible for the remaining 20 percent of the allowed charges for covered services and the \$60 deductible (effective 1973), if applicable to the current bill.

Services furnished by group-practice prepayment plans (GPPP's) to members are normally rendered in return for predetermined premium payments. In these cases Medicare reimbursement is made directly to the GPPP. A GPPP which exercises the option provided by law to be paid 80 percent of the reasonable cost of services (in lieu of 80 percent of the allowed charge for such services) generally deals directly with the Health Care Financing Administration. Plans which choose to be paid on the basis of allowed charges are reimbursed by the SMI carrier.

For bills incurred in the SMI portion of the program after March 1968, claims must be filed no later than the close of the calendar year following the year in which the services are furnished. For services provided during the last 3 months of the calendar year, bills may be submitted through the end of the second year following.

HEALTH MAINTENANCE ORGANIZATIONS

The 1972 amendments enabled health maintenance organizations (HMO's) to receive reimbursement from Medicare on a capitation basis for both HI and SMI services. An HMO is an organization which provides to enrolled persons, either directly or by arrangement with others, comprehensive health services on the basis of a periodic rate without regard to the frequency or extent of services furnished to a particular enrollee. For Medicare purposes, an HMO must provide all of the Medicare covered services generally available in its service area.

Prior to the 1972 amendments, HMO-type plans could be reimbursed under Medicare on a capitation basis only for the costs of providing physician's and related SMI services. Plans that also provided inpatient hospital, skilled nursing facility, and home health care as covered benefits to their members billed Medicare through intermediaries and carriers on a fee-for-service basis the same as any other provider. Plans that do not choose or cannot qualify to participate under the HMO option may continue to receive Medicare reimbursement on this basis, under the group practice prepayment plan (GPPP) regulations.

Plans that do not choose to participate under either HMO or GPPP regulations may continue to bill Medicare, through carriers and intermediaries for all Medicare covered services provided to their members who are Medicare beneficiaries. The majority of the existing plans are in this category.

THE STATISTICAL SYSTEM OF THE MEDICARE PROGRAM

The primary objective of the Medicare statistical system is to provide data to measure and evaluate program operation and effectiveness. Benefit payment operations furnish information about the amount and kind of hospital and medical care services used by disabled persons and persons aged 65 and over, as well as the expenditures for such services. The applications by hospitals, skilled nursing facilities, home health agencies, independent laboratories, and suppliers of portable X-ray and outpatient physical therapy services to participate in the program provide data on the characteristics of such provider of services. The claim number assigned to each individual serves as the link between the services utilized under Medicare and the demographic characteristics of individual enrollees.

THE BASIC RECORDS

The statistical system is based on four related computer records: the health insurance master file, provider record, hospital insurance (Part A) utilization record, and the medical insurance (Part B) payment record.

The Health Insurance Master File

The health insurance master file identifies each aged and disabled person eligible for health insurance benefits and indicates whether he is entitled to hospital insurance benefits, to supplementary medical insurance benefits, or to both. The entitlement record provides the population data for each part of the program which serves as the base for the computation of a variety of utilization rates, limited only by its demographic content.

Provider Record

Every hospital, home health agency, skilled nursing facility, independent clinical laboratory, and supplier of portable X-ray or outpatient physical therapy services must apply for participation in the Medicare program. Data on the application forms are stored in the central provider record and are updated as facilities are recertified periodically, as new ones apply for participation, or as some leave the program. When the information in this provider file is combined with utilization data, it serves to relate the characteristics of facilities and agencies that provide care to the kinds and amounts of service used by persons insured under Medicare.

Utilization Record for Hospital Insurance

The administration of the hospital insurance (HI) program requires that two items of information be known about each person at the time of his admission to a hospital—his entitlement under the program and the extent to which he has used the benefits available to him.

When a patient is admitted to a hospital, the admission section of the inpatient hospital admission and billing form is completed by the hospital and forwarded through its inter-

mediary to the Health Care Financing Administration's central record. As soon as the record is checked, normally in less than 24 hours, the intermediary is informed of the patient's benefit status and of the number of days of inpatient care to which he is entitled during his current benefit period.

This information is then forwarded to the hospital. At discharge, the hospital completes the billing section of the form and sends it to the intermediary for payment. When payment is approved the intermediary forwards the claim to the Health Care Financing Administration for inclusion in the central record.

As part of this process, information on diagnoses and surgical procedures is coded for a 20-percent sample of beneficiaries based on specific combinations of digits in the health insurance claim number. Admission and billing forms are handled in a comparable manner by home health agencies and skilled nursing facilities. The outpatient billing form is also transmitted to the Health Care Financing Administration for entry in the central record after the bill is approved for payment by the intermediary.

All the information on utilization experience in hospital and skilled nursing facilities that is needed to administer the "benefit period" provision is recorded centrally. This information includes stays in certain nonparticipating institutions that meet the definition of a hospital or skilled nursing facility under the law, and days of care not covered or reimbursable under the program.

Each admission and billing form contains both the beneficiary's claim number and the provider's identification number. The resulting record can be readily matched to the beneficiary files and the provider files. By this process, a statistical tape record is created for the sample of insured persons. It contains the information needed for tabulation from the three files related to HI utilization.

Payment Record for Medical Insurance

Payment or reimbursement under the SMI program is made only after receipt by the carriers (intermediaries involved in Part B of the Medicare program) of bills with allowed charges in excess of \$60 during a calendar year.

For the enrolled population, carriers need to know from a central source the amount of the deductible that has been met; thereafter, during the remainder of the calendar year, the only additional information required from the Health Care Financing Administration for reimbursement or payment purposes is whether the person is still enrolled under the SMI program.

The administration and operation of the program requires accurate and complete information of the amounts paid by the carriers for physician services and for other services and supplies under this part of the program. To meet these needs, carriers furnish a payment record consisting of tape,

punched card or other machine-readable form of each bill paid. A bill is defined as a request for payment from or on

behalf of a beneficiary as the result of services provided by a single physician or supplier.

GENERAL TABLES

Notes

Health insurance for the aged and disabled: The program, commonly known as Medicare, that pays for part of the costs of hospital and medical services for participating persons aged 65 and over, and certain disability beneficiaries below age 65.

Persons aged 65 and over: Aged beneficiaries including a small number of persons in this age group who are eligible solely on the basis of chronic end-stage renal disease (ESRD).

Disability beneficiaries: Persons under age 65 entitled to cash disability benefits for at least 24 consecutive months and those who are also eligible solely on the basis of end-stage renal disease (ESRD).

ESRD, all ages: Comprises (1) disability beneficiaries under age 65 with ESRD, (2) persons eligible solely on the basis of ESRD and (3) a small number of persons age 65 and over with ESRD.

Number of persons enrolled: Represents those persons enrolled for coverage in the program as of July 1, the midpoint of the calendar year, as shown by information entered in social security records through March 1978.

Hospital and/or supplementary medical insurance: All persons aged 65 and over who enroll under hospital insurance and/or supplementary medical insurance. This total is larger than the total for hospital insurance because aged persons are enrolled for medical insurance but not for hospital insurance.

Amount reimbursed: Represents amounts paid in a calendar year to, or on behalf of, insured persons. Also included in the 1977 payment is \$351 million representing bills paid in earlier years but received too late to be included in reports covering those years. The amounts for 1977 are based on information from bills entered in Social Security Administration records through June 1978.

Geographic classifications: Based on the address to which the enrollee's cash benefit check is being mailed or the mailing address recorded in the Health Insurance Master (HIMA) file on April 1, 1978.

All areas: Consists of the United States, Guam, Puerto Rico, Virgin Islands, all other areas, and foreign countries.

United States: Consists of the 50 States, the District of Columbia, and residence unknown.

All other areas: Consists of American Samoa, the Canal Zone, Canton Island, Caroline Islands, Guam, Mariana Islands, Marshall Islands, Midway Islands, Virgin Islands, and Wake Island.

County: The primary divisions of the 50 States are, in general, counties. In Louisiana, however, these divisions are called parishes and in Puerto Rico they are called municipios. Alaska is divided into 29 census divisions included here as the equivalent of counties. A number of cities that are independent of county organizations are reported separately in Maryland, Missouri, and Virginia.

County unknown: Data for a small number of enrollees do not permit identification of county of residence. The number of persons residing in such "unknown" counties is not shown separately but is included in the State totals.

Metropolitan and nonmetropolitan counties: The division of counties into metropolitan and nonmetropolitan groups is based on the list of standard metropolitan statistical areas (SMSA's) as published by the National Bureau of Standards under the direction of the Office of Management and Budget.¹ Except in New England, each SMSA includes a county that contains a central city of at least 50,000 inhabitants based on the 1970 census. In addition, contiguous counties are included in the SMSA if they meet certain criteria of economic and social integration with the central city. In New England, an SMSA consists of towns and cities, rather than counties. However, the mailing address in the HIMA record file is coded only for State and county. Therefore, for New England, the SMSA was replaced by the metropolitan State economic area, which is defined in terms of whole counties. Metropolitan counties are those counties that are included in an SMSA or metropolitan SEA. These counties are further divided into those without a central city. Nonmetropolitan counties are those that fall into neither an SMSA nor a metropolitan SEA.

¹National Bureau of Standards, U.S. Department of Commerce, Federal Information Processing Standards Publication 8-3, *Standard Metropolitan Statistical Areas* (Washington, D.C.: U.S. Government Printing Office, August 1973).
